

**CONDENSED CONSOLIDATED INTERIM FINANCIAL STATEMENTS
FOR THE THREE MONTHS ENDED JUNE 30, 2025 AND 2024
(EXPRESSED IN CANADIAN DOLLARS)**

MANAGEMENT'S RESPONSIBILITY FOR FINANCIAL REPORTING

The accompanying unaudited condensed consolidated interim financial statements of J2 Metals Inc. (the "Company") are the responsibility of management and the Board of Directors.

The unaudited condensed consolidated interim financial statements have been prepared by management, on behalf of the Board of Directors, in accordance with the accounting policies disclosed in the notes to the unaudited condensed consolidated interim financial statements. Where necessary, management has made informed judgments and estimates in accounting for transactions which were not complete at the statement of financial position date. In the opinion of management, the unaudited condensed consolidated interim financial statements have been prepared within acceptable limits of materiality and are in accordance with International Accounting Standard 34 - Interim Financial Reporting using accounting policies consistent with International Financial Reporting Standards appropriate in the circumstances.

Management has established processes, which are in place to provide it with sufficient knowledge to support management representations that it has exercised reasonable diligence in that (i) the unaudited condensed consolidated interim financial statements do not contain any untrue statement of material fact or omit to state a material fact required to be stated or that is necessary to make a statement not misleading in light of the circumstances under which it is made, as of the date of, and for the periods presented by, the unaudited condensed consolidated interim financial statements and (ii) the unaudited condensed consolidated interim financial statements fairly present in all material respects the financial condition, results of operations and cash flows of the Company, as of the date of and for the periods presented by the unaudited condensed consolidated interim financial statements.

The Board of Directors is responsible for reviewing and approving the unaudited condensed consolidated interim financial statements together with other financial information of the Company and for ensuring that management fulfills its financial reporting responsibilities. The Audit Committee assists the Board of Directors in fulfilling this responsibility. The Audit Committee meets with management to review the financial reporting process and the unaudited condensed consolidated interim financial statements together with other financial information of the Company. The Audit Committee reports its findings to the Board of Directors for its consideration in approving the unaudited condensed consolidated interim financial statements together with other financial information of the Company for issuance to the shareholders. Management recognizes its responsibility for conducting the Company's affairs in compliance with established financial standards, and applicable laws and regulations, and for maintaining proper standards of conduct for its activities.

The accompanying notes form an integral part of these condensed consolidated interim financial statements

1. Nature of operations and going concern

J2 Metals Inc. (formerly Cranstown Capital Corp.) (the “Company” or “Cranstown”) was incorporated under the *Business Corporations Act* (British Columbia) on February 2, 2021 and was a Capital Pool Company under the policies of the TSX Venture Exchange (the “Exchange”). The Company’s registered office is at 1710-1050 West Pender Street, Vancouver, British Columbia, V6E 3S7.

Private company J2 Metals Inc. (“Old J2”) was incorporated on April 19, 2020 for the primary purpose of engaging in mineral exploration. On March 18, 2025, the Company acquired all of the issued and outstanding common shares of Old J2 in exchange for the issuance of an aggregate of 9,934,348 Cranstown common shares. The transaction constituted the Company’s qualifying transaction (“QT”) as such term is defined in Policy 2.4 (Capital Pool Companies) of the TSX Venture Exchange.

Pursuant to the QT, Old J2 was amalgamated with 1517805 B.C. Ltd. to form 1531924 B.C. Ltd. (“1531924”). As a result, 1531924 became a wholly-owned legal subsidiary of the Company. The Company also subsequently changed its name from Cranstown Capital Corp. to J2 Metals Inc., and trading in the Company’s common shares commenced on the TSX Venture Exchange the week of March 24, 2025 under the symbol JTWO. For accounting purposes, the transaction constitutes a reverse takeover (see Note 3).

Going Concern

These condensed consolidated interim financial statements have been prepared on a going concern basis that contemplates the realization of assets and discharge of liabilities at their carrying values in the normal course of business for the foreseeable future. These condensed consolidated interim financial statements do not reflect any adjustments that may be necessary if the Company is unable to continue as a going concern.

The Company has no source of operating revenue, has incurred net losses since inception and as at June 30, 2025 had a deficit of \$1,391,876. Its continued existence will be dependent on the receipt of financing on terms which are acceptable to the Company. The Company has not generated any revenues or cash flows from operations since inception and does not expect to do so for the foreseeable future.

The Company’s continuation as a going concern depends on its ability to successfully raise capital. Although the Company has been successful in the past in obtaining financing, there is no assurance that it will be able to obtain adequate financing in the future or that such financing will be on terms acceptable to the Company; therefore giving rise to a material uncertainty which may cast significant doubt as to whether the Company’s cash resources and working capital will be sufficient to enable the Company to continue as a going concern for the 12-month period after the date of these consolidated financial statements. Consequently, management is pursuing various financing alternatives to fund operations and advance its business plan. To facilitate the management of its capital requirements, the Company prepares annual expenditure budgets that are updated as necessary depending on various factors, including successful capital deployment and general industry conditions. The Company may determine to reduce the level of activity and expenditures to preserve working capital and alleviate any going concern risk.

The assumption that the Company will be able to continue as a going concern is subject to critical judgments by management with respect to assumptions surrounding the short and long-term operating budget, expected profitability, investing and financing activities and management’s strategic planning. Should those judgments prove to be inaccurate, management’s continued use of the going concern assumption could be inappropriate.

2. Basis of presentation

Statement of Compliance

These unaudited condensed consolidated interim financial statements have been prepared in accordance with International Accounting Standard 34, Interim Financial Reporting. Accordingly, they do not include all of the information required for full annual financial statements required by IFRS as issued by IASB and interpretations issued by IFRIC. These unaudited condensed consolidated interim financial statements should be read in conjunction with the Company's audited consolidated financial statements for the year ended March 31, 2025.

These condensed consolidated interim financial statements have been prepared on a historical cost basis. In addition, these condensed consolidated interim financial statements are using the accrual basis of accounting, except for cash flow information. In addition, these condensed interim consolidated financial statements have been prepared in accordance with the same accounting policies and methods of application as the most recent audited consolidated financial statements for the year ended March 31, 2025, except that they do not include all the disclosures required for the annual audited consolidated financial statements.

In the preparation of these condensed consolidated interim financial statements, management is required to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the condensed consolidated interim financial statements and the reported amounts of expenses during the period. Actual results could differ from these estimates.

These condensed consolidated interim financial statements were approved by the Board of Directors on August 22, 2025.

Basis of Consolidation

These consolidated financial statements include the accounts of the parent company, J2 Metals Inc., and its subsidiaries listed below:

	Jurisdiction	Equity Interest	
		2025	2024
1531924 B.C. Ltd.	British Columbia, Canada	100%	N/A
1223615 B.C. Ltd.	British Columbia, Canada	100%	100%
Northway Napoleon Corporation	Alaska, USA	100%	100%

The accounts of the Company's subsidiaries are included in the consolidated financial statements from the date that control commences until the date that control ceases. Control exists when the Company has the power, directly or indirectly, to govern the financial and operating policies of the entity so as to obtain benefits from its activities. All intercompany balances and transactions have been eliminated.

3. Qualifying transaction

For accounting purposes, the QT was treated as a reverse takeover, as Old J2's shareholders obtained control of the consolidated entity. The transaction did not meet the definition of a business combination under IFRS 3 and was accounted for as a capital transaction in accordance with IFRS 2, Share-based Payments. As a result, Old J2 was identified as the accounting parent (legal subsidiary), and Cranstown as the accounting subsidiary (legal parent). The QT closed on March 18, 2025, resulting in the issuance of 9,934,348 common shares.

J2 METALS INC.
Notes to Condensed Consolidated Interim Financial Statements (Unaudited)
Three Months Ended June 30, 2025 and 2024
(Expressed in Canadian Dollars)

Since Cranstown did not meet the definition of a business under IFRS 3 due to its lack of significant operating activities, the QT was treated as an acquisition of Cranstown's net assets by Old J2 in exchange for shares. The excess of the fair value of consideration over the net assets acquired was expensed as a listing expense.

Immediately prior to the closing of the transaction, Cranstown had 8,404,000 common shares issued and outstanding. Thus, effectively, Old J2 was deemed to have issued 8,404,000 common shares to acquire Cranstown, at a fair value of \$0.10 per share.

The purchase price and allocation of assets and liabilities are presented as follows:

Purchase Price

Fair value of CRAN shares	\$	840,400
Total purchase price	\$	840,400

Net Assets Acquired

Cash	\$	341,586
Accounts payable		(3,809)
Net identifiable assets	\$	337,777

<u>Listing expense</u>	\$	502,623
-------------------------------	-----------	----------------

4. Marketable securities

Marketable securities consist of equity securities of an entity or entities over which the Company does not have control or significant influence. Pursuant to the Company optioning the Miniac Property to Stearman Resources Inc. ("Stearman"), the Company received 200,000 Stearman common shares on January 25, 2024 and a further 120,000 Stearman common shares on February 2, 2025.

The continuity of the carrying value of these securities is as follows:

Fair value, March 31, 2024	\$	20,800
Unrealized loss on marketable securities		(8,000)
Fair value, March 31, 2025	\$	12,800
Unrealized gain on marketable securities		4,800
Fair value, June 30, 2025	\$	17,600

5. Exploration and evaluation assets

Title to mining properties involves certain inherent risks due to the difficulties of determining the validity of certain claims as well as the potential for problems arising from the frequently ambiguous conveyancing history characteristic of many mining properties. The Company has investigated title to all of its mineral properties and, to the best of its knowledge, title to its properties is in good standing.

Miniac

On August 4, 2020, the Company entered into an agreement to acquire the Miniac Property in Quebec from Kenorland Minerals Inc. In consideration for the acquisition, and in combination with the Napoleon acquisition, the Company granted Kenorland common shares equal to 15% of the outstanding share capital of the Company following an initial capital raise of a minimum of \$1,000,000 along with a 2% Net Smelter Royalty ("NSR") should the project enter commercial production. The Company also committed to spending a minimum of \$1,000,000 on the Miniac property within 12 months from the date of purchase. On August

J2 METALS INC.

Notes to Condensed Consolidated Interim Financial Statements (Unaudited)

Three Months Ended June 30, 2025 and 2024

(Expressed in Canadian Dollars)

21, 2021, the Company issued to Kenorland 202,687 common shares valued at \$405,374 as consideration for the acquisition of the Miniatic Property. On March 11, 2022, as subsequently amended on January 23, 2024, the Company entered into an option agreement with Stearman, whereby Stearman would acquire an interest of 75% in the Miniatic property upon certain milestones being met, including expenditures of \$970,000 over five years. Should Stearman achieve all of the milestones in the option agreement, the Company will receive a total 800,000 Stearman shares and \$457,500 in cash payments.

Napoleon

On February 3, 2021, the Company entered into a purchase and sale agreement with Kenorland Minerals Inc. for the acquisition of 1223615 B.C. Ltd., the holding company for Northway Napoleon Corporation which is an Alaskan-incorporated company which holds 108 claims in the Forty Mile Mining District of Alaska. In consideration for the acquisition of 1223615 B.C. Ltd., and in combination for the Miniatic acquisition, the Company agreed to issue to Kenorland such shares which would result in Kenorland owning 15% of the outstanding share capital following an initial capital raise of at least \$1,000,000. On August 21, 2021, the Company issued to Kenorland 202,687 common shares valued at \$405,374 as consideration for the acquisition of the Napoleon Property.

Twenty Mile

The Twenty Mile Property is located in north central British Columbia, 122 km north-northwest of Fort St. James, and 224 km northwest of Prince George. The Twenty Mile Property consists of 15 mineral claims separated into three discontinuous claim blocks, known as Twenty Mile (TM), Burn, and Wud, and covers a total area of 12,333.35 hectares. The claims at Twenty Mile were obtained through online staking by the company as well as several cash transactions for 100% interest of strategic claims of interest. The Company holds a 100% interest in all claims on the TM, Burn and Wud claims and the properties are free of any NSRs or underlying agreements. During the year ended March 31, 2024, the Company posted a \$24,900 reclamation deposit concerning the Twenty Mile Property with the British Columbia Ministry of Energy, Mines and Low Carbon Innovation.

The continuity of the carrying value of these assets is as follows:

Three months ended June 30, 2025	Miniac	Napoleon	Twenty Mile	Total

6. Related party transactions

Remuneration of key management personnel of the Company was as follows:

Three months ended	June 30, 2025	June 30, 2024
CEO	\$ 15,750	\$ -
CFO	\$ 16,950	\$ -
Corporate Secretary	\$ 1,050	\$ -
VP Exploration	\$ 15,750	\$ 2,310

The Company defines key management as the Company's directors and officers of the Company. As at June 30, 2025, amounts due to key management for remuneration totaled \$17,200 (March 31, 2025 - \$76,300).

On April 15, 2025, the Company granted 1,150,000 stock options exercisable at \$0.10 per share for a period of five years, vesting over 12 months, to officers and directors pursuant to the Company's stock option plan. The options were valued at \$36,450 using the Black-Scholes valuation model with the following assumptions: dividend yield of 0%, expected volatility of 40%, current stock price of \$0.09, exercise price of \$0.10, risk-free rate of return of 2.72% and expected life of 5 years. During the three months ended June 30, 2025, the Company recognized \$12,150 as a share-based compensation related to the vested portion of the options.

All related party transactions are in the normal course of operations and are measured at the exchange amount, which is the amount of consideration established and agreed to by the related parties.

7. Share capital

a) Authorized share capital

The Company's articles authorize an unlimited number of common shares without par value.

Balance, June 30, 2024	-	-

	Number of Options	Weighted-Average Exercise Price (\$)
Balance, March 31, 2025	840,400	\$ 0.10
Issued	1,150,000	0.10
Balance, June 30, 2025	1,990,400	\$ 0.10

On April 15, 2025, the Company granted 1,150,000 stock options exercisable at \$0.10 per share for a period of five years, vesting over 12 months, to officers and directors pursuant to the Company's stock option plan. The options were valued at \$36,450 using the Black-Scholes valuation model with the following assumptions: dividend yield of 0%, expected volatility of 40%, current stock price of \$0.09, exercise price of \$0.10, risk-free rate of return of 2.72% and expected life of 5 years. During the three months ended June 30, 2025, the Company recognized \$12,150 as a share-based compensation related to the vested portion of the options.

The following table reflects stock options outstanding as at June 30, 2025:

Expiry Date	Exercise Price	Life Remaining	Options
July 8, 2031	\$ 0.10	6.02	840,400
April 15, 2030	\$ 0.10	4.79	1,150,000
	\$ 0.10	5.31	1,990,400

d) Warrants

As part of December 2024 financing, an aggregate of 180,000 finder's warrants, with each warrant being exercisable to acquire one common share at a price of \$0.10 per share until December 31, 2026. The fair value of these finder's warrants was estimated to be \$9,629 using the Black-Scholes valuation model with the following assumptions: dividend yield of 0%, expected volatility of 100%, current stock price of \$0.10, exercise price of \$0.10, risk-free rate of return of 2.96% and expected life of 2 years.

Concurrent with the QT, the Company issued 144,000 finder's warrants, with each warrant being exercisable to acquire one common share of the Company at a price of \$0.10 per share until February 27, 2027. The fair value of these finder's warrants was estimated to be \$2,368 using the Black-Scholes valuation model with the following assumptions: dividend yield of 0%, expected volatility of 75.17%, current stock price of \$0.06, exercise price of \$0.10, risk-free rate of return of 2.54% and expected life of 2 years.

J2 METALS INC.
Notes to Condensed Consolidated Interim Financial Statements (Unaudited)
Three Months Ended June 30, 2025 and 2024
(Expressed in Canadian Dollars)

The following table reflects the continuity of warrants for the three months ended June 30, 2025:

	Number of Warrants	Weighted-Average Exercise Price (\$)
Balance, March 31, 2025	324,000	\$ 0.10
No activity	-	-
Balance, June 30, 2025	324,000	\$ 0.10

The following table reflects warrants outstanding as at June 30, 2025:

Expiry Date	Exercise Price	Life Remaining	Warrants
December 31, 2026	\$ 0.10	1.50	180,000
April 15, 2030	\$ 0.10	4.79	144,000
	\$ 0.10	2.96	324,000

8. Liability and income tax effect on flow-through shares

Funds raised through the issuance of flow-through shares are expected to be expended on qualified Canadian mineral exploration expenditures, as defined pursuant to Canadian income tax legislation. The flow-through gross proceeds less the qualified expenditures made to date represent the funds received from flow-through share issuances that have not been spent and are held by the Company for such expenditures.

9. Financial instruments and risk management

The Company is exposed to the following financial risks:

- i) Market risk
- ii) Credit risk
- iii) Liquidity risk

In common with all other businesses, the Company is exposed to risks that arise from its use of financial instruments. This note describes the Company's objectives, policies and processes for managing those risks and the methods used to measure them. Further quantitative information in respect of these risks is presented throughout these financial statements.

General objectives, policies and processes

The Board has overall responsibility for the determination of the Company's risk management objectives and policies and, whilst retaining ultimate responsibility for them, it has delegated the authority for designing and operating processes that ensure effective implementation of the objectives and policies to the Company's finance function.

The overall objective of the Board's finance function is to set policies that seek to reduce risk as far as possible without unduly affecting the Company's competitiveness and flexibility and to ensure that risks are properly identified and that the capital base is adequate in relation to those risks. Further details regarding these policies are set out below.

Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market prices are comprised of three types of risk: currency risk, interest rate risk, other price risk.

Currency risk

Currency risk is the risk that the fair value of, or future cash flows from, the Company's financial instruments will fluctuate because of changes in foreign exchange rates. The Company's share capital as well as the Company's reporting currency is denominated in Canadian Dollars. The Company considers this risk to be minimal.

Interest rate risk

Interest rate risk is the risk arising from the effect of changes in prevailing interest rates on the Company's financial instruments. The Company holds no interest-bearing financial liabilities and therefore interest rate risk is limited to potential decreases on the interest rate offered on cash held with its financial institution. The Company considers this risk to be minimal.

Credit risk

Credit risk is the risk of potential loss to the Company if a counterparty to a financial instrument fails to meet its contractual obligations. The Company's cash is held with reputable institutions in Canada. The Company is not exposed to any material credit risk.

Liquidity risk

Liquidity risk is the risk that the Company will not meet its financial obligations as they fall due. The Company monitors its risk by monitoring the maturity dates of its existing debt and other payables. The Company's policy is to ensure that it will always have sufficient cash to allow it to meet its liabilities when they become due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation.

To achieve this objective, the Company regularly monitors working capital positions and updates spending plans as considered necessary. Monthly working capital and expenditure reports are prepared by the Company's finance function and presented to management for review and communication to the Board. As at June 30, 2025, all of the Company's financial liabilities are due within one year.

As at June 30, 2025, the Company's working capital was \$646,639 and it does not have any monetary long-term liabilities. The continuing operations of the Company are dependent upon its ability to obtain adequate financing and to commence profitable operations in the future.

Capital management

The Company monitors its equity as capital.

The Company's objectives in managing its capital are to maintain a sufficient capital base to support its operations and to meet its short-term obligations and at the same time preserve investor's confidence and retain the ability to seek out and acquire new projects of merit. The Company is not exposed to any externally imposed capital requirements.
